CLEANING AND MAINTENANCE

How to care for your outdoor furniture.

SYNTHETIC WICKER/PLASTIC/TEXTILENE

Our synthetic materials are best cleaned with a damp cloth and Brafab's Plastic Cleanser (or a mild detergent). Do not clean your furniture with a pressure washer. To protect the surface, never place hot objects directly on the tabletop. Always use beverage coasters for glasses and glass objects, as they can become extremely hot in strong sunlight.

SUPERSTONE

First rinse with plenty of water to remove excess dirt that might otherwise scratch the surface. After rinsing, proceed cleaning the table with a cloth or a sponge. Use lukewarm water and a mild detergent, such as washing-up liquid. Avoid aggressive detergents with any kind of grinding material, as it may cause permanent stains or scratches. Never place hot objects directly on the material, make sure to use table mats for protection. Superstone needs to breathe in order to avoid permanent staining. Therefore avoid to cover the table with thick plastic materials.

LAMINATE

For best result, use a damp cloth and a mild detergent, such as a washing-up liquid, or an all-purpose detergent. After cleaning, wipe the furniture with a dry cloth. Never place hot objects directly on the surface, always use placemats for protection.

NONWOOD

Clean with a damp cloth and a mild detergent. Don't use a pressure washer. Make sure not to put any hot objects directly on the material, always use placemats to protect the surface. Glasses and glass objects may become extremely hot in strong sunlight, therefore always place beverage coasters underneath them. Depending on the temperature, the table top can move some and cause it to bulge slightly.

ACACIA

All our acacia-wood come from certified plantations in Vietnam. In order to preserve its beautiful surface, make sure to treat the furniture with a Brafab oil. On all new furniture, allow the oil to soak in completely. Repeat this several times, until as much oil as possible is absorbed by the wood. Excess oil is easily wiped off. We recommend to carry out this treatment on a regular basis, especially in the spring before moving furnitures outdoors.

PAINTED ACACIA

Our painted Acacia furniture is best cleaned with a soft cloth and a mild detergent. After cleaning, wipe the surface with a dry cloth. Always protect your furniture from rain, preferably with a well-ventilated furniture cover. If the furniture is exposed to rain, make sure to wipe them dry. In case of damage to the varnish, grind lightly with a fine sandpaper and remove any dirt left behind. Before painting the damaged area, try first on a small spot to make sure you have the right color. Consult a paint store for advice on the correct product to use.

TEAK

All our teak-wood comes from certified plantations in Indonesia. Severely soiled teak is best cleaned with Fabel's Teak Cleaner. Light dirt can be washed off with water and mild detergent. Wet the teak for a while before cleaning, so that the surface becomes soft. If the wood grain stands up a bit after cleaning, lightly sand down the surface with fine sandpaper. Let the furniture dry for at least one day and then proceed with after-treatment using Fabel's or Golden cares range of maintenance products.

Natural coloured blasted Teak teak wood is treated with a water-proofing wood treatment and normally requires only a cleaning with mild detergent. The furniture can be treated with any Brafaboil.

White pigmented Teak wood is best cleaned with warm water, a mild detergent and a soft cloth. Do not use any oils or such, as long as you want to keep the white surface.

Grayed teak wood is best cleaned with warm water, a mild detergent and a soft cloth. Use golden cares maintenance products to keep the dirt- and water repellant surface.

PINE

All of our pine furniture is made from swedish FSC-certified red-wood. When the finish starts to look dull and water no longer bead on the surface it is time to give your pine furniture a treatment. First, clean the furniture thoroughly and let them dry for at least one day. Finally treat the furniture with a Brafab oil.

WOOD FURNITURE IN GENERAL

Generally the screws need to tighten up from time to time. It is a good rule to do this before you move the furniture into storage, and again before you take them out for the season.

STORAGE – ALL FURNITURE IN GENERAL

Keep the furniture well protected from wind and weather, preferably in a cool, dry and well ventilated storage. Make sure the furniture is completely dry before they are stored away. Most importantly, use furniture covers which allows good air ventilation.

IT FEELS LIKE HOME

The trend speaks for itself: home is really where the heart is, a place where we enjoy spending quality time with family and friends.

So It is not surprising that so many people like to create a warm and cozy feeling also outside the house.. And this is where synthetic wicker fits so well into the picture. With its attractive design and natural colour scheme, it can turn an entire patio into an inviting oasis during the hot summer months.

Our synthetic wicker furniture is made in a way similar to natural wicker. The wicker is woven around a solid weather resistant frame, a method made by hand and with great skills. In time for this summer this

season, we take pride in being able to offer a wide variety of furniture with different types of weaving and size of fibres, combined with strong and durable fabrics, as for example Brafatex. We only use high quality materials, from the inside and out, therefore our synthetic wicker furniture suits all kinds of weather conditions. As you can see, our wide assortment of armchairs, tables, sofas and loungers, provides endless possibilities. Now, it is up to you to add your personal touch to the summer.

BRAFAB NINJA – "A FAMILY THAT GROWS"

Ninja is one of our series with seemingly endless combination possibilities. It's available in nature colour, grey and black. This series has everything you need to build a really pleasant suit or a comfortable dining set, or why not both? The dining tables come in different sizes and shapes, and combined with the equally comfortable chairs you have multiple

options to create an inviting dining area. Ninja lockers and side tables gives you convenient storage options, and with a couple of pot-sets filled with plants you will bring nature closer to you. Sit yourself down in Ninja Duo or Ninja lounge and enjoy the freedom of a relaxing time.

SOHO

Soho is the latest contribution to our line of buildable, high and comfortable sofas – especially well suited when there isn't enough space for both a dining and a lounge area. The series is neat in dimensions and fits perfectly well in smaller areas. Soho is made out of eight different parts which are available in three colour combinations – brown/beige, grey/grey and black/gray.

It has a very convenient dining group height: the table height is 69 cm, and the height of the sofa, armchair and building parts is 51 cm. The frame is made of aluminum, with weaving in synthetic rattan, and cushions with high lightfastness.

BRAFAB CORA

The Cora series is now supplemented with a new weaving, 2-line grey, giving the furniture an exclusive and hand crafted look. The Cora dining table measures 210 X 100 cm with a table top in super stone that makes room for many. It fits well with the Cora positioning chair. Another option for a beautiful dining area is to combine Cora round table with Cora armchair. The Haag cushion, available in a variety of colours, fits all Cora armchairs.

BRAFA B MAGDA

Magda is one of our best-sellers. Synthetic wicker in timeless design and worry-free performance are probably two of the reasons. The group is available in various colours and weaves. The table is also available in several variants, with a teak, glass or nonwood top. Cushions on photo are Magda seat- and sofa cushions.

SUMMER ALL YEAR ROUND

We realized a long time ago that summer is just too good to be limited to the months of June, July and August. With our genuine rattan furniture and a glazed patio, you can in fact enjoy that special summer feeling all year round.

The manufacturing process of rattan furniture is built on pure craftsmanship. The long rattan willows are woven around a frame of thicker rattan, resulting in a vibrant and natural furniture that brings about a warm, cozy feel to your veranda or living room. One of the news this year is the open weaving. It gives a light and airy impression and fits almost anywhere. Though,

furniture made of natural rattan should be kept away from rain and moisture. For this reason they are better placed on a glazed patio. If you feel like decorating your room with furniture of different materials, it can be a good idea to combine groups in rattan with some of our teak tables – just let your creativity loose!

ALDORASSA, BONETE, AMPATO & KUBOR

A pleasant feeling arises, when given the opportunity to enjoy real high quality craftsmanship. Our genuine rattan furniture is woven by hand with great skill. They are at their best in conservatories or patios under roof, as they need to be protected from moisture.

MAKE THE MOST OF SUMMERTIME

It can not be said enough: Summer in our latitudes can be as versatile as the characters in a theatre play. A beautiful sunny day may change into a grey mass of clouds and rain, before giving way to more sun and blue sky – all within the blink of an eye.

However, with some modern aluminum furniture on the patio, you can just as easy move the cushions back out in the sun – as soon as it comes in sight. This flexibility is probably a good reason why our aluminum furniture maintain its popularity year after year. Aluminum furniture is maintenance free, easy to move around and comfortable to sit in – and with a design that keeps improving for each season. This year we

are introducing new colours and combinations of aluminum with textile and other materials. For instance, have a look at the new group Leone, which can be shaped exactly as you wish. In order to be sure that our furniture will turn out the way we want, we test and adjust it numerous times before it is approved for production. This extra caution is for your benefit and, of course, completely at our expense.

LEONE

LEONE

Leone – buildable group with a lounge feel, in aluminum, with seat in textilene and thick cushions for a maximum of comfort. Leone consists of one corner section, a mid section and an armchair which can be combined as you wish. The table has got a white/frosted glass tabletop as standard, laminate tabletop (as pictured) is optional (7936-77B). Leone footstool can be used as a table in combination with laminate tabletop 70 x 70 cm.

Brushed aluminium and grey nonwood

Camden - a chair with elegant lines!

7675

Attention!

Don't forget our Nano spray! It is an extremely useful spray, which cleans and provides a protective coat in one and same treatment. Spray on, wait and rub carefully with Scotch-Brite. It should be used on all nonwood surfaces, but works very well on other materials too.

Use the green side of the sponge on matte surfaces.

Use the yellow side of the sponge on smooth surfaces.

BRABER ASTER

Aster - an easy-placed, romantic group with soft shapes that reminds of old-time cane groups. Fits just as good in a lilac arbor as on a wooden deck. Traditional style but in modern, tough material! The frame in lacquered aluminum and rattan weaving require a minimum of maintenance. Cushions are included.

A NEW GEM ON THE PATIO

If you feel the desire to decorate your outdoor area with furniture that really stands out, then a new group in Brafatex is the perfect choice.

Brafatex is a truly exciting furniture material which we introduced last year, and which is sold almost exclusively in Sweden by Brafab. It fits just as well on the patio as in the winter garden.

Brafatex speaks its own design idiom, and it can be found on some of our most beautiful lounge groups. Check out the details in, for example, Prado and Forum, and you'll see what we mean. This year's novelty is called Nora, a robust dining group, equally

welcoming on the special dinner occasion, as in the everyday life.

The material shows different effects depending on width, colours and in which combinations the synthetic fibre material is woven. All the furniture in Brafatex also stands up to high quality demands; they're both dirt resistant and water proof and have a very high UV-resistance. A furniture group in Brafatex is, in other words, virtually made to fit a Swedish summer.

BRABER PRADO

The Prado modules can be combined into to larger or smaller groups. Cushions of strong polyester in grey. Table top in super-stone.

IN CLOSE CONTACT WITH NATURE

With summer, one can never know for sure. Some years we can enjoy its presence from April to September, other years it settles for a brief guest appearance.

But one thing is for certain: A dinner party out in the open is always beyond comparison. So be prepared for a great time, and make sure you have the right furniture to serve the occasion. In other words, go for teak wood.

Teak is an amazing material; tough and robust enough to stand up to the weather elements, year after year. And with enough endurance to handle almost any amount of pressure, even in slender dimensions. But to achieve these superior features, the teak wood has to undergo proper treatment right from the start. Before being felled, a teak tree is ringbarked and left to dry on the root for two years. Then, the planks

need to gain the proper moisture content before being shipped off to become furniture. Since the manufacturing process for teak wood calls for high precision tools, we use machines to obtain the desired quality. This particular quality is found in detail in, for example, the Cecilia set. Like many of our teak furniture, it has a white-pigmented surface with a charming, rustic feel to it. As shown in several places in this catalogue, teak also fits well in with furniture made from other materials, such as synthetic rattan. It's important for us to know the origin of the teak wood and to protect the wild specimen. Therefore we choose to work exclusively with planted teak from plantations controlled by the Indonesian state.

TEAK CLASSIFICATION

Teak furniture is manufactured in different quality grades, both as regards timber and fabrication. For this reason, Brafab divides its teak range into different quality classes. In view of our efforts to protect the environment, we use a leaf as the classification symbol. Brafab's entire teak range derives from planted teak trees.

Did you know that Sweden has one of the strictest laws against illegal wood logging in the entire EU? Among other things, the Timber regulation (Timmerförordningen) governs how the teak is being felled, as well as traceability back to the plantations where it is grown. It's a stricter regulation than the more common FSC, which you may have heard of. All Brafabs teak products comply with the Swedish Timber regulation, of which we are happy and proud. Learn more about this legislation on skogsstyrelsen.se.

AB-teak. Class 1 teak with the finest selected teak wood. The teak logs have a high age and contain a high proportion of oil, giving the wood a long life. The finish is top-class and all details are in high-quality materials. Products we are proud of - products that'll last. Treat with Fabels or Golden cares range of maintenanceproducts (page 242-243).

BC-teak. This is Brafab's standard teak classification. The difference lies in the tree's age and structure. High finish on this machine-made furniture. Treat with Fabels or Golden cares range of maintenanceproducts (page 242-243).

Brushed teak. A surface with rough and beautiful finish. It is treated with wood-impregnation that makes it water resistant and extra resistable against moss and mold. Everest, Collin and Milan are all furniture with this treatment. Treat with Fabels or Golden cares range of maintenanceproducts (page 242-243).

White-pigmented teak (Walker style). Several items in our teak range have been white-pigmented and blasted to give them a delightful rough finish. The surface is lighter and has a lovely shimmery white finish with a rustic feel. Clean only with mild detergent if you want to keep the white finish.

Greying teak. Our greying teak wood is treated in a way that speeds up the natural process that occurs when the table is turning grey. The treatment is water based and it's important to continue to treat the table with water-based products. The water- and dirt repellent treatment that comes with the table can preferably be used as maintenance a few times each season. See Golden Care's products on pp 242-243

MILANO

Milano is a buildable group in blasted natural teak with a clean, stylish design. The teak is treated and has a surface which is waterresistant, but also resistant to mildew and moss. Besides the buildable parts there are two tables in different sizes to choose between, one round measuring 90 cm, and one square measuring 90 x 90 cm. It comes with cushions in beige, with a complementary choice in brown. **Please note our new back-cushions!**

HARD SURFACES FOR SOFT MOMENTS

Not even Christmas Eve can match the expectations we have of an approaching summer.

It's what we have longed for, when everything moves at a slower pace and we can take our time to sunbathe by the sea or just ease off in the undisturbed lushness of our gardens. Lazy days followed by pleasant nights with barbecues and parties in the company of good friends. And in between social gatherings, a bit of quiet contemplation away from everything, in our favourite spot. But believe us, those moments will reach new dimensions, when leaning back in outdoor furniture made of acacia wood.

Acacia is both hard and durable, well suited for outdoor furniture. The models in our hardwood range span from the classic Dakota to the modern piece Everton. Arizona is another complete series, now updated with a sofa and a vintage style rocking chair – an item we believe will become the favourite this summer. Our hardwood range includes antique-coloured and splendidly oiled natural acacia.

BRAFAB DAKOTA

A classic piece of furniture in brushed antique white acacia. This image shows two armchairs, a three-seat sofa and a table. Taupe coloured cushions are included, optional cushions called Amarillo are available in various designs.

SOLID CLASSICS FOR ALL TYPES OF WEATHER

Pine furniture has a special place in our hearts. It may be part fashion, considering how well it fits into our Nordic environment, and part tradition – because solid pine furniture seems to wake up childhood memories of long carefree summer days, with clear blue skies and ever lasting sunshine.

But beyond this air of nostalgia, just how good an outdoor material is pine tree nowadays? As good as ever, we dare to say, as long as it is quality timber, treated in such a way that it withstands the weather conditions. Our pine furniture is made exclusively of Swedish FSC-certified Norrland pine, treated no

less than three times. Glazed and thereafter laquered twice. The result is outstanding durability and colour fastness. In addition, we offer a warm brown pressure impregnation which meets both the environmental standards and provides the furniture with a strong and beautiful finish.

56:an

Bring out the fresh strawberries, put the drinks on ice, and invite your friends to a classic Swedish crayfish-party! Prepare yourself for very comfortable seating. It's time for a re-release of our modern classic chair, the 56! With its lovely sway and "funkis"-style shapes, it fits just as well in a shaded garden spot as by the poolside. 100 % Swedish made, in knot free pine with white glazing and hot galvanized massive steel frame. The table is foldable and the chairs are stackable. A piece of furniture that will last for generations!

EFFORTLESS SWEET DAYS IN THE SUN

Amazing summer days are filled with generosity. They are there to please you from morning to night – without asking anything in return. Just kick off your shoes, smile back at the sun, and enjoy the luxury of being totally casual and carefree.

If you prefer maintenance free furniture, resin might be exactly what you are looking for. Light and flexible, easy to move, and undemanding as the summer itself.

Furthermore, resin is easy to shape into different designs and styles – in our wide range you will find everything from simple, traditional camping set to elegant and exclusive designer furniture. The difference between high- and low class resin furniture, besides

seating comfort, lies in the material itself. Take any item from our Italian supplier Nardi, for example:

Chic and stylish furniture made of superior quality resin. Several years out in the baking sun will not have the slightest effect on neither the colour or the lustre. These features are particularly evident in the group Bora. We recommend to take a look at this piece, and decide for yourself.

SET FOR SUCCESS

Chilled refreshments on the sun-drenched café veranda, a warm breeze ruffling your hair, laughter and small talks from the guests at the next table – an outdoor restaurant is without a doubt more than the sum of its parts.

When the overall experience of an establishment – the atmosphere, the food and the interior design feels right, your visitors will feel happy and at ease. Naturally, the furniture plays an important role, both for practical and esthetical reasons. By choosing a particular style of furniture, you can boost the restaurant's image and target a specific audience. Remember that café furniture needs strength and durability

to cope with daily use in a public space. Brafab Café furniture have all of these features, and more. Our catalogue contains chairs for practically every taste, together with legs and table tops to be combined in a number of ways. You may want to take a closer look at the laminate top which resembles the famous Perstorp plate – an up and coming summer classic!

BRAFA B BARISTA

Coffee time with your own Barista. New café group with a “vintage” feeling designed by Gustav Hallén. Extra sitting comfort, as the backrest adjusts to your sitting angle. Black-lacquered steel frame with teak on back, seat and table top. Table and chairs can be folded.

14851-8 Barista chair black/teak, Tw 44 cm, Th 81 cm, Sh 47 cm
14857-8 Barista table black/teak, Tw 70 cm, Td 70 cm, Th 70 cm

Gustav Hallén studied industrial design at Umeå College of Design. Since graduating he has run his own design agency, Formacy Design. “I love products with a strong graphic expression which evoke a feeling of recognition. And I like design with an element of innovation and a splash of humour,” Gustav says. The Barista furniture is a mix of clear graphic expression, simplicity and ingenious details. It is a balanced combination of contemporary design and traditional cabinetry, equally suitable in the home and at a café.

BODÖ

Neat group with stacking chairs in black aluminium and grey synthetic rattan. The Bodö table is 60 cm in diameter and has a glass top.

- 13001-8-7 Bodö chair black/grey

IT'S TIME FOR A TIME-OUT

The sun is shining from a beautiful clear blue sky? Fine. Then you have the perfect opportunity to sit back in one of our comfortable lounge chairs and watch the world go by. Switch off your lap top and your phone. Dedicate this day to yourself, and to the luxury of a bit of relaxation without obligations.

Whether you need an extra bed for the camping tent or just something comfortable for the beach, we have the model that you are looking for. Here you will find a wide range of leisure furniture to help you reach the perfect stage of relaxation. Take for example the classic Baden-Baden chair; it has evolved quite a lot since

the first models became popular around the beginning of last century. Now there are stepless models with textile in the back and seat – outstanding value for a day out. Pick out your favorite, then press the standby button and enjoy.

7785-2 Pavilion Havannah beige, 3,6 x 3,6 m (walls included)

A PLACE IN THE SUN. WHEN EVER YOU NEED.

Even the blissful sunshine can at times become too much of a good thing. Then it is time to escape into the cool shadow for a bit, to rest your mind and body. With our parasols and marquees, you can have the best of two worlds.

Now you can actually create your own little sanctuary, protected from the scorching bright light, without having to move indoors. Choose from our wide range of parasols: Here you find everything from small, simple models designed for the balcony – to our giant canopys, which measures four times four meters. Are you looking for a wooden or aluminum frame? Check

how it matches your choice of outdoor furniture. You can pick from a variety of stands of different materials and colours. Of course we also have marquees and exclusive pavilions, which both provide a pleasant setting at the party, as well as protection from wind and mosquitoes during late evenings.

Hov with grey trellises and grey canopy.

Grey wall with opening/zippers.

BRAFAB Hov 3 x 4

Here the practical solution for those who want a simple outdoor room or an attractive secluded corner in their outdoor area. The pavilion provides protection from rain, sun and wind, and even from insects if you use side walls or a mosquito net! Pavilions are available in sizes

3.5 x 3.5 m and 3 x 4 m. A robust pine framework supports the rain-resistant canopy, which is available in colours grey, beige and black. The wood details are stained in brown, black or white. Trellises are available as an optional extra and give the pavilion a snug feeling.

127 x 46 cm, height 55 cm

THREE SIMPLE STEPS FOR TEAK AND HARDWOOD MAINTENANCE

For best results and to extend the lifetime of teak or hardwood garden furniture it is important to maintain these correctly. Depends on the age of the furniture. Instructions:

New timber: Rub down with sandpaper of grain 80-120. Protect according to step 3.

Newer furniture in GOOD CONDITION: Clean according to step 2 below. Protect thereafter according to step 3.

Older furniture that HAS BECOME WEATHERED AND GREY: Pretreat according to step 1 below. Clean thereafter according to step 2 and protect using a Teak Sealer, Teak Oil or Chinese Wood Oil according to step 3. If you would like to keep the grey patina, omit step 1, clean according to step 2 and apply a Teak Protector during step 3.

STEP 1: PRE TREATMENT

Teak Restorer

Fabel's Teak Restorer removes the grey, dull surface from teak and other types of hardwood. The product is easy to use: Moisten the wood thoroughly, apply the product and spread it on the surface to be treated. Fabel's Teak Restorer never damages the wood. The grey surface is a huge problem for certain types of tropical hardwoods, and under the influence of our European weather conditions a grey surface goes black a lot faster than it otherwise would do.

7643 Teak Restorer, 1 L

Chinese Wood Oil

An excellent oil with extremely good penetration properties. The oil has excellent water-repellent properties and prevents the formation of cracks, discolouration and mould. The dry content of the oil is 42 % by volume.

7614 Chinese Wood Oil, transparent 1 L
7612 Chinese Wood Oil, transparent 2.5 L
7614-6 Chinese Wood Oil, brown pigment 1 L

STEP 2: CLEANING

Teak Cleaner

This water-based product has been developed as a safe cleaner that easily removes fat and oil stains, which are the most common type of stains. It also keeps furniture clean by neutralising dirt and dust particles that penetrate the wood.

7642 Teak Cleaner, 0.5 L

Teak Oil

Fabel Teak Oil is 100% composed of a combination of high quality natural oils with different properties. It protects against dirt, stains, greying and weathering. The oil contains no solvents. Environmentally friendly and completely biodegradable.

7644 Teak Oil, 0.5 L
7645 Teak Oil, 1 L

STEP 3: PROTECTION

Teak Sealer

Fabel Teak Sealer provides long term protection for teak and hardwood while maintaining the beautiful original colour of the wood. It protects against dirt, stains, greying and weathering. Fabel Teak Sealer extends maintenance interval periods. One treatment lasts from one to two seasons.

7650 Teak Sealer, 1 L

Teak Protector

This product has been developed to preserve the grey patina that many people consider to be both beautiful and desirable. It also provides protection against weathering, moss, insects etc. Fabel's Teak Protector works by preventing the penetration of moisture and dirt whilst containing no oil. It therefore does not cause any colour change and is invisible after application. The product is completely neutral, protects the grey patina and makes furniture maintenance easy.

7652 Teak Protector, 0.5 L

A WATERBASED ALTERNATIVE

Golden cares maintenance products are completely water-based and suitable for eg our grayed teak products. However, Golden cares products works well on other wood products aswell, but water-based and oil-based products may not be combined.

Teak Cleaner

Teak Cleaner is an effective cleanser that removes coatings, algae and mold growth. Much of the teak original color will return. Do not use teak cleaner if you want to keep the gray patina. Let the furniture dry thoroughly before applying any further treatment. Follow the operating instructions on the packaging.

7580 Teak Cleaner waterbased 500 ml

Teak Shield

Teak Shield provides a stain and water repellent finish on teak furniture, but also on other wood products. Apply Teak Shield a couple of times a season, or when you notice that the water repellent ability declines.

7581 Teak Shield waterbased 500 ml

Trärent wood cleaner

Trärent is a gentle, biodegradable cleaning agent for wooden furniture. It removes algae and residues from heavily stained furniture.

7619 "Trärent" Wood cleaner 350 g

Nanospray

A very useful spray that cleans and provides a protective layer in the same treatment. Spray on, wait and rub gently with scotch brite. For use on nonwood surfaces, but works very well on man many other materials aswell.

7675 Nanospray 0,25 L

Resin cleaner

An agent designed specifically for plastic furniture. Effective against dirt and moss/mold.

7640 Resin cleaner 0,5 L

Cleansing – mould/algae

A cleansing agent especially made for cleaning and protecting teak furniture against algae and mould attacks. The detergent has also proved itself very successful on other types of wood. After the treatment, the surface will stay free from algae and mould for up to 2 years.

7676 Cleansing – mould/algae 1 L

Cleaning sponge

7582 Cleaning sponge

OTHER CLEANING PRODUCTS

Fabric Waterproofing Nano

Nano fabric waterproofing spray is an invisible barrier repellent against water and dirt for all types of fabric. It leaves no visible trace and the breathability of the fabric remains unchanged. 250 ml is enough for 4 large seat pads or around 5 m2.

7672 Fabric Waterproofing Spray 0.25 L

COLOUR AND COMFORT FOR BODY AND MIND

In some cases, one and one equals three. Just like when the combination of two beautiful things leads to something extraordinary. This is particularly true when it comes to our cushions and chairs. Each works on their own, but together they will lay the foundation for a highly pleasant and comfortable summer.

But our cushions do more than just bring comfort – they can add a full colour palette to your entire veranda. Let your imagination rule, and here is how you get the best result: First select the model of cushion, then choose colour and pattern from our wide assortment. Some of the cushions have different patterns on the front and back. You will find a variety of fabrics and

designs, including heavy Panama Cotton. However, our finest material is probably Dralon, which provides maximum comfort and colour fastness. To keep the textile in top condition, we recommend that you store the cushions flat and dry in one of our practical and stylish cushion storage boxes.

DROOM

Design Outdoor Living

Piega chair, 80710, brown

A DESIGNER'S DREAM

The superior quality of the frames and cushions, matched with beautiful Italian fabric, represents the very top of the line in our range. It's furniture to take pride in, and to enjoy on a full scale.

With its sleek lines, ultra-modern design and high comfort, the Droom series borders elegantly between indoor and outdoor environment. Placed in a proper context, the furnitures and access-ories become an overall entity, surrounded by an air of elegance and splendor. Besides, Droom gives you a spectra of options to customize your outdoor dream with a dash of your own imagination. Lets not hide the fact: Droom is not your ordinary piece of furniture. In regards to

quality and design, it's flawless. In fact, the entire concept stands for high-end craftsmanship, down to the smallest detail. As for performance, it will fit perfectly in a public place, a spa lounge or in a similar relaxing environment. Likewise, it will be equally perfect on a private patio or in any living room that requires a smart and comfortable group with lots of style, sophistication and elegance.

BRAFAB NIDO & PIEGA

Great comfort meets exquisite finish and exotic looks. The frame in warm brown pigment oiled Acacia with a "walnut look"; the beautiful weaving, handmade and double woven with a rustic finish – Nido makes one think of enchanted evenings in the Orient, clinking glasses and swaying palm trees.

Altogether a stunning piece of furniture, Nido is simply a superb choice for decorating a patio or a dining room. Perhaps in combination with the sofa. The extension table makes this group usable everyday aswell as at special moments with company. This group is truly irresistible and built to meet all your requirements when it comes to cater for gatherings with good friends in a relaxed environment.

Cleaning and maintenance

Can be washed with Teak/hardwood cleaner and thereafter oiled with brown coloured oil to keep it's original walnut look. Oil the wooden acacia frame carefully. Use only a brush and soap water to clean the rattan.

BRAFAB ROGER

Neat and elegant with a sober classic look: Roger elevates the sitting area of any lounge, patio or living room. Typically for the Droom series, this group may be placed both on the inside or the outside and accompanied with any complementary accessories of your choice; such as Armchairs, Sofa and Side tables. The frame in powder coated aluminium with weaving in PP-belt (polypropylene) gives an overall modern and clean impression.

As expected, the cushions are top notch, as well as the Italian fabrics with high light fastness. Roger is simply the connoisseurs' choice of furniture, built for a long lasting relationship.

Cleaning and maintenance

Frame: Use only a brush and soap water to clean the frame and the PP-belt.

Table: Use only a brush and soap water to clean the frame and the tabletop.

BRAFAB SPIDER

The natural centre of your patio or Spa area, the sofa Spider brings a cool luxurious indoor feeling to your outdoor space. Combined with a matching Sofa or Side table, it makes for an ideal sitting area to kick back and relax in. Deco cushions with feather fillings is highly recommended to fulfil the delight of this group.

The Italian fabrics are top of the line, washable and strong and with high light fastness. The frame in powder coated aluminium with weaving in PP-belt (polypropylene) gives an overall modern and clean impression.

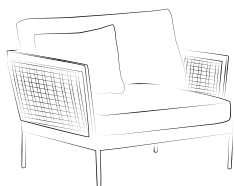

Cleaning and maintenance

Frame: Use only a brush and soap water to clean the frame and the PP-belt.

Table: Use only a brush and soap water to clean the frame and the tabletop.

BRAFAB CITY

Tough floor lamp in two colors, black or gray. Frame of aluminum and screen of pp-band. IP44 for outdoor use.

80704-8 City floor lamp black/black
80704-70 City floor lamp aluminium/grey

BRAFAB CITY

City is also available in a straight execution. Black frame and black screen or aluminum colored frame with a grey screen. Base E27. 230V, max 23 W. IP44 - for outdoor use

80701-8 City floorlamp black/black
80701-70 City floorlamp aluminium/grey

BRAFAB ALICANTE

Screen in woven wicker. Foldable stand. Base E27. 230V, max 23 W. IP44 - for outdoor use.

80702-8 Alicante floorlamp black
80702-5 Alicante floorlamp white

BRAFAB BILBAO

Floor lamp in two colors, black or white, both with white screen of durable plastic and base of galvanized steel. The lamp has a built-in switch. Socket E27. 230V, max 23 W. IP44 - for outdoor use.

80703-8 Bilbao floorlamp black
80703-5 Bilbao floorlamp white

BRAFAB LAMAR

Flat woven rug of 100% polypropylene, a plastic that feels textile. The rug can handle bright sun and the yarn is UV stable. It is completely unaffected by water and can not become moldy! The mat should be kept in the storage room or garage during the winter.

88800-2 Lamar rug beige
88800-71 Lamar rug light grey
88800-7 Lamar rug dark grey

Tw 160 cm, Td 230 cm

BRAFAB CURLY

A soft and trendy rug which will make your patio, balcony or winter garden warm and cozy. Its earth colours give a perfect setting for your garden furniture. The rug is UV-stabilized and withstands bright sunshine. It is water resistant and can be kept outside the whole season. The rug is also stain and water repellent and easy to rinse with a hose.

7515-7 Curly rug grey
7515-2 Curly rug beige
